Who We Are

Raagam Consulting is a trusted 15+ years advisory firm dedicated to helping individuals and families make informed decisions through **confidential background verification, professional counselling, and legal consulting.**

We understand that decisions related to marriage and family can have lifelong implications. Our multidisciplinary approach combines meticulous fact verification, compassionate guidance, and practical legal insight to help clients navigate these important milestones with confidence.

Our team works with the highest standards of **confidentiality, integrity, professionalism, and ethical conduct**, ensuring that every engagement is handled with discretion and respect for privacy.

Whether you are seeking reassurance before marriage, guidance during personal or family challenges, or clarity on legal matters, Raagam Consulting is committed to delivering reliable information and trusted support tailored to your unique needs.

Our Vision & Mission

Vision:

To be India's most trusted partner in pre-matrimonial background verification, counselling, and legal consulting, empowering individuals and families to make informed, confident, and secure life decisions.

Mission:

- Deliver accurate, ethical, and confidential services.
- Support clients with professional counselling and practical legal guidance.
- Uphold integrity, transparency, and respect in every engagement.
- Foster trust by helping families navigate important life decisions with clarity and confidence.

Our Core Services

1. Pre-Matrimonial Background Verification

Comprehensive verification of identity, family background, education, employment, financial status, lifestyle, social reputation and other agreed parameters.

2. Counselling

Pre-marital, marriage, family, relationship and individual counselling.

3. Legal Consulting

Guidance on matrimonial and family matters, documentation, legal awareness and coordination with experienced legal professionals.

Why Pre-Matrimonial Verification

Marriage is one of the most significant decisions in a person's life. While trust is the foundation of every relationship, independent verification helps families make informed decisions by confirming important facts before marriage. In today's fast-paced world, information shared during matrimonial discussions may sometimes be incomplete or inaccurate. A professional background verification provides clarity, minimizes uncertainty, and helps protect both individuals and families from avoidable risks.

Our verification process helps verify:

- Identity and Residential Address
- Family Background and Reputation
- Educational Qualifications
- Employment and Professional Credentials
- Financial Stability and Liabilities
- Lifestyle, Habits, and Social Reputation
- Criminal and Litigation History (where legally permissible)
- Previous Marital Status and Significant Relationships (within legal and ethical limits)
